

6/4/2009

Members,

The TWU Flight groups representing the Flight Instructors and Simulator Technicians met on June 3 and June 4, 2009 at Flagship University with AA management along with federal mediator Terri Brown. After two days of negotiation with AA management it became apparent that we would not be able to settle on the remaining open articles. Future dates have not been scheduled at this time. The Flight groups will continue the process until the company is prepared to engage in a settlement that the membership can accept.

Fraternally,

Jim Fudge

President

Local 541
